

MAVIZ ALI

AI Software Development Trainee | AI Automation & Integration | Front-End Developer

+92 336 1321040 | maviz.ali92@gmail.com | linkedin.com/in/mavizali

PROFESSIONAL SUMMARY

Computer Science graduate and front-end developer with 3+ years of experience building responsive, accessible, and user-focused web interfaces. Developing hands-on capability in Agentic AI, LLM-powered software features, AI workflow automation, structured prompting, tool/function calling, and REST API integration. Brings practical experience across JavaScript frameworks, UI implementation, debugging, cross-functional delivery, and AI-enabled application concepts. Seeking an AI Software Development Trainee, AI Automation, or AI Integration role where strong web engineering fundamentals can be applied to intelligent software products.

CORE TECHNICAL SKILLS

AI & Automation: Agentic AI concepts, LLM application integration, prompt engineering, tool/function calling, structured outputs, multi-step workflow design, AI agent orchestration fundamentals, RAG fundamentals, API-based automation

Front-End Development: HTML5, CSS3, JavaScript (ES6+), React.js, Angular, Vue.js, jQuery, responsive design, reusable UI components, cross-browser compatibility

Integration & Development: REST APIs, JSON, asynchronous requests, third-party API integration, debugging, Git/GitHub, code reviews, Agile collaboration

CMS & Commerce: WordPress, Shopify, theme customization, responsive content implementation

Design Collaboration: Figma, Adobe XD, Sketch, wireframe-to-code implementation, pixel-accurate UI development

Currently Strengthening: Python for AI automation, model/API evaluation, vector databases, MCP-based agent tooling

PROFESSIONAL EXPERIENCE

Front-End Developer | Tack Solutions

Apr 2025 - Present

Karachi, Pakistan

- Develop responsive web interfaces using HTML5, CSS3, JavaScript, and modern front-end frameworks including React.js, Angular, and Vue.js.
- Convert wireframes and UI/UX mockups into functional, interactive pages while maintaining design accuracy, usability, and mobile responsiveness.
- Integrate front-end components with APIs and back-end services, troubleshoot interface issues, and improve application reliability across browsers and devices.
- Participate in code reviews and support junior developers with implementation guidance, debugging, and front-end quality practices.
- Manage multiple project priorities and collaborate with designers, developers, and stakeholders to deliver production-ready web experiences.

UI Developer | SYSCROWD

Aug 2022 - Mar 2025

Karachi, Pakistan

- Translated Figma, Adobe XD, and Sketch designs into interactive, pixel-accurate web pages using HTML, CSS, JavaScript, and jQuery.
- Collaborated with UX designers, back-end developers, and project stakeholders to build cohesive interfaces aligned with functional requirements.
- Identified and resolved UI/UX defects, responsive layout issues, and cross-browser inconsistencies to improve usability and visual quality.
- Maintained reusable front-end code and supported iterative updates for websites and CMS-based projects.

AI & SOFTWARE PROJECTS

AI-Powered Career Roadmap Integration

ASP.NET Core, Angular, REST APIs, Groq/OpenAI-compatible LLM API, JSON

- Worked on an AI-enabled career guidance workflow that generates role-based learning roadmaps from user profile information.
- Integrated an OpenAI-compatible chat-completions API, processed structured JSON responses, and connected generated recommendations to the front-end experience.
- Applied prompt constraints for location-aware job resources, reliable output formatting, error handling, and user-specific results.

Agentic AI Workflow Memory System (In Progress)

MCP concepts, agent workflows, prompt design, software architecture

- Designing a phased personal project for reusable AI workflow memory across AI assistants and development tasks.
- Exploring agent responsibilities, context storage, tool interfaces, prompt libraries, structured handoffs, and evaluation criteria for reliable multi-step automation.

Responsive Web & CMS Implementations

HTML, CSS, JavaScript, WordPress, Shopify

- Built and maintained responsive websites and CMS-driven interfaces for business, publishing, and service-based projects.
- Selected work includes thebrandprofessionals.com, tisoroglobal.com, shashikarangana.com, and bookwritinghouse.com.

EDUCATION

Bachelor of Science in Computer Science <i>Sir Syed University of Engineering & Technology</i>	2021 - 2025
--	-------------

Intermediate in General Science <i>Aga Khan University Examination Board</i>	2019 - 2021
--	-------------

PROFESSIONAL DEVELOPMENT

- Agentic AI and AI Automation - self-directed learning focused on LLM applications, agent workflows, tool calling, API integration, prompt design, and structured outputs (2026).
- Continuous learning in Python-based AI automation, retrieval-augmented generation, vector databases, and Model Context Protocol concepts.
